

**Those who want to be tested must first make an appointment by calling the New York State Department of Health at 888-364-3065.**

These are factors that individuals will be asked by phone to see if testing can be scheduled when one calls for an appointment:

- They have been in proximate contact with another person known to be positive
- They have symptoms and traveled to China, Iran, the United Kingdom and Ireland, and most European countries ([a list can be found here](#))
- They are in either mandatory or precautionary quarantine and have symptoms
- An individual is symptomatic and has not tested positive for any other infection

The state-run mobile testing site is in a parking lot next to South Beach Psychiatric Center at 777 Seaview Ave, Staten Island, NY 10305. It is open daily from 7 a.m. to 7 p.m. [Click here for directions.](#)

**Those who wish to make an appointment can do so by calling the New York State Department of Health at 888-364-3065.**
