

Script to introduce SDOH screening tool.

“During this meeting I want to make sure that we address what is important to you to get help with as well as other areas of your lifestyle that it might be useful for you and me to address. Sometimes there are things going on in our lives and we do not realize they can affect our _____ (recovery, health, well-being, ability to care for our needs etc.) To do that I will introduce a variety of topics to you. You may find some of them do not have an impact on you and those we do not need to talk about. I want to introduce all the topics to make sure we provide the best care planning for you.”
